

The South Hampshire Historical Aviation Society

Presents

From Spitfire to TSR 2

in 28 years - Yes, 28 years.

A Talk By

Andy Richardson

Andy started his flying career in 1960 with the RAF, which included the crewing the Vulcan bomber.

After taking early retirement in 1980 he started a second career in the aviation industry, initially with British Aerospace and with McDonnell Douglas, that later merged with Boeing.

Andy's talk is a study of Britain's aerospace industry, which has produced some of the best military aircraft ever produced.

Wednesday 4th June

19:30 for 19:45 start

Non-members always welcome

(£5 on the door)
